# ABOUT US

La Costa Barbershop was born from the meeting of two barbers who shared the same vision: to create their own space — one built on skill, identity and attitude.

Their journey began in 2017, training at one of the world's most renowned academies, based in Málaga.

This was followed by years of experience in various barbershops across Fuengirola -*a diverse, demanding and multicultural city*- where they refined their craft working with all hair types.

The connection was instant, and so was the dream: to build a barbershop with character, where every cut is more than just a service.

An experience shaped by detail.  
**Today, that dream is a reality.**

# OUR STYLE

At La Costa Barbershop, every technique we apply carries tradition — but always through a modern lens.

We adapt to each client, of every age, because we believe a good haircut isn't a formula: it's an interpretation.

A form of expression shaped by precision, awareness and attitude.

What drives us is the desire to improve. With every service, we aim to deliver more than technique — we offer freshness, elegance, and a style with true identity.

A barbershop with soul. And character.

# LA COSTA IN ACTION

# THE TEAM

Cristian and Jorge share a single vision: to create a barbershop with identity — a place where style is interpreted, not imitated.

Every client who walks through the door leaves with more than just a good look — they leave with an experience shaped by attitude, respect and a passion for detail.
